IMPORTANT NOTICES.

Registered medical practitioners should be careful to send the Registrar immediate notice of any inaccuracies in the spelling of names or in the description of qualifications or in the dates of obtaining them.

Every registered medical practitioner is also required to keep the Registrar informed of any change in their registered addresses, as also to answer promptly all inquiries that may be sent by the Registrar in regard thereto, in order that correct addresses may be duly inserted in the Medical Register and in the Lists published annually.

No charge is made for alteration of address, but under clause (*e*) of section 17 of the Acts the names of registered medical practitioners may be struck off the Register for want of correct address.

A copy of the Annual Medical List wherein the name first appears registered will be supplied *gratis* to every person registered, provided that, before the end of the year of publication, application be made for such copy to the Registrar accompanied by eight annas for postal carriage. Subsequent issues may be obtained from the Registrar provided the application be accompanied by the price of the list *plus* the cost of postage or under specific instructions for the publication being sent per V.P. post.

After the publication of the name in the Annual Medical List, the last issue of that list alone is legal evidence of registration.

All persons registered under whatever diploma or diplomas are legally qualified for the practice of Medicine, Surgery and Midwifery.

Every registered medical practitioner is advised to have in his possession a copy of the Rules of the Council, containing full information published for the guidance of all registered persons. Copies may be obtained from the Registrar on payment of the cost *plus* postage, if any.

The Chinese equivalents of 'Physician' and 'Surgeon' as adopted by the Burma Medical Council for use by registered medical practitioners on their signboards are given hereunder :

'Physician' 內科醫生

'Surgeon' 外科醫生

The following "Warning Notice" which appears in the British Medical Register is reproduced for the information of medical practitioners registered in Burma, as the Burma Medical Council proposes to apply the principles therein laid down in so far as they are relevant under Indian Enactments :

WARNING NOTICE.

(As published in the British Medical Register for 1937.)

The General Medical Council desire to bring to the notice of registered medical practitioners the following statement, which summarizes the RESOLUTIONS AND DECISIONS OF THE COUNCIL UPON FORMS OF PROFESSIONAL MISCONDUCT that have from time to time been brought before the Council in the exercise of their disciplinary jurisdiction over the members of the medical profession.

The jurisdiction is conferred upon the Council by the 29th section of the Medical Act, 1858, which is as follows :—

"If any registered medical practitioner shall be convicted in England or Ireland of any felony or misdemeanour, or in Scotland of any crime or offence, or shall after due enquiry be judged by the General Council to have been guilty of infamous conduct in any professional respect, the General Council may, if they see fit, direct the Registrar to erase the name of such medical practitioner from the Register."

It must be clearly understood that the instances of professional misconduct which are given below do not constitute, and are not intended to constitute, a complete list of the offences which may be punished by erasure from the Medical Register : and that by issuing this notice the Council are in no way precluded from considering and dealing with any form of professional misconduct (as, for example, immorality involving abuse of professional relationship) which may be brought before them, although it may not appear to come within the scope or precise wording of any of the categories herein set forth. Circumstances may and do arise from time to time in relation to which there may occur questions of professional conduct which do not come within any of these categories. In such instances, as in all others, the Council have to consider and decide upon the facts brought before them.

1. CERTIFICATES, NOTIFICATIONS, REPORTS, ETC.

Registered medical practitioners are in certain cases bound by law to give, or may be from time to time called upon or requested to give, certificates, notifications, reports, and other

documents of a kindred character, signed by them in their professional capacity, for subsequent use either in Courts of Justice or for administrative purposes.

Such documents include, among others, Certificates, Notifications, Reports, etc.—

(*a*) Under the Acts relating to births, deaths or disposal of the dead ;
(*b*) Under the Acts relating to lunacy and mental deficiency and the rules made thereunder ;
(*c*) Under the Vaccination Acts and the Orders made thereunder ;
(*d*) Under the Factory Acts and the Regulations made thereunder ;
(*e*) Under the Education Acts ;
(*f*) Under the Public Health Acts and the Orders made thereunder ;
(*g*) Under the Workmen's Compensation Acts ;
(*h*) Under the Acts and the Orders relating to the notification of infectious diseases ;
(*i*) Under the National Insurance Acts and the Regulations made thereunder ;
(*j*) Under the Old Age Pensions Acts and the Regulations made thereunder ;
(*k*) Under the Merchant Shipping Acts ;
(*l*) In connection with Sick Benefit, Insurance, and friendly societies ;
(*m*) For procuring the issue of Foreign Office passports ;
(*n*) For excusing attendance in Courts of Justice, in the public services, in public offices, or in ordinary employments ;
(*o*) In connection with Naval and Military matters ;
(*p*) In connection with matters under the control of the Ministry of Pensions.

Any registered practitioner who shall be shown to have signed or given under his name and authority any such certificate, notification, report, or document of a kindred character, which is untrue, misleading or improper, *whether relating to the several matters above specified or otherwise*, is liable to have his name erased from the Medical Register.

2. UNQUALIFIED ASSISTANTS AND COVERING.

The employment by any registered medical practitioner in connexion with his professional practice of an assistant who is not duly qualified or registered, and the permitting of such unqualified person to attend, treat, or perform operations upon patients in respect of matters requiring professional discretion or skill, is in the opinion of the Council in its nature fraudulent and dangerous to the public health ; and any registered medical practitsoner who shall be shown to have so employed an unqualified assistant is liable to have his name erased from the Medical Register.

Any registered medical practitioner who by his presence, countenance, advice, assistance, or co-operation, knowingly enables an unqualified or unregistered person, whether described as an assistant or otherwise, to attend, treat, or perform any operation upon a patient in respect of any matter requiring professional discretion or skill, to issue, or procure the issue of any certificate, notification, report, or other document of a kindred character (as more particularly specified in Division 1 hereof), or otherwise to engage in professional practice as if the said person were duly qualified and registered, is liable on proof of the facts to have his name erased from the Medical Register.

The foregoing do not apply so as to restrict the proper training and instruction of *bonâ fide* students, or the legitimate employment of dressers, midwives, dispensers, surgery attendants, and skilled mechanical or technical assistants, under the immediate personal supervision of a registered medical practitioner.

3. SALE OF POISONS.

The employment, for his own profit and under cover of his own qualifications, by any registered medical practitioner who keeps a medical hall, open shop, or other place in which scheduled poisons or preparations containing scheduled poisons are sold to the public, of assistants who are left in charge but are not legally qualified to sell scheduled poisons to the public, is in the opinion of the Council a practice professionally discreditable and fraught with danger to the public, and any registered medical practitioner who is proved to have so offended will be liable to have his name erased from the Medical Register.

4. DANGEROUS DRUGS.

The contravention by a registered medical practitioner of the provisions of the Dangerous Drugs Acts and the Regulations made thereunder may be the subject of criminal proceedings and any conviction resulting therefrom may be dealt with as such by the Council under the powers given them by section 29 of the Medical Act, 1858. But any contravention of the Acts or the Regulations, involving an abuse of the privileges conferred thereunder upon registered medical practitioners, whether such contravention has been the subject of criminal proceedings or not, will, if proved to the satisfaction of the Council, render a registered medical practitioner liable to have his name erased from the Medical Register.

5. ASSOCIATION WITH UNQUALIFIED PERSONS.

Any registered medical practitioner, who either by administering anæsthetics or otherwise, assists an unqualified or unregistered person to attend, treat, or perform an operation upon any other person, in respect of matters requiring professional discretion or skill, will be liable on proof of the facts to have his name erased from the Medical Register.

6. ADVERTISING AND CANVASSING.

The practices by a registered medical practitioner—

(*a*) of advertising, whether directly or indirectly for the purpose of obtaining patients or promoting his own professional advantage ; or for any such purpose or procuring or sanctioning or acquiescing in the publication of notices commending or directing attention to the practitioner's professional skill, knowledge, services, or qualification, or depreciating those of others ; or of being associated with or employed by those who procure or sanction such advertising or publication, and

(*b*) of canvassing or employing any agent or canvasser for the purpose of obtaining patients ; or of sanctioning, or of being associated with or employed by those who sanction, such employment ;

are in the opinion of the Council contrary to the public interest and discreditable to the profession of medicine, and any registered medical practitioner who resorts to any such practice renders himself liable on proof of the facts to have his name erased from the Medical Register.

7. ASSOCIATION WITH UNCERTIFIED WOMEN PRACTISING AS MIDWIVES.

Whereas it has been made to appear to the Council that certain registered medical practitioners have, from time to time, by their countenance or assistance or by issuing certificates, notifications, or other documents of a kindred character enabled uncertified persons to attend women in child-birth otherwise than under the direction and personal supervision of a duly qualified medical practitioner contrary to law ;

And whereas such conduct is in the opinion of the Council discreditable to the profession of medicine, and calculated to defeat the purpose of the statutes made in the public interest for the protection of mothers and infants :

Notice is hereby given that any registered practitioner who is proved to have so offended will be liable to have his name erased from the Medical Register.

Government of Burma, Public Health Department Notification No. 49, dated the 24th April 1931.

The following addition to the rules published in Public Health Department Notification No. 109, dated the 6th November 1930, which has been made by the Medical Council under sub-section (*1*) of section 26 of the Burma Medical Act, 1915, and confirmed by the Government of Burma under sub-section (*2*), is published for general information under sub-section (*3*) of the said section :—

The following shall be added as Rule 116A :—

" 116A. The contravention by a Registered Medical Practitioner of the provisions of the Opium Act, 1878, or the Dangerous Drugs Act, 1930, and the Rules and Regulations made thereunder, may be the subject of criminal proceedings, and any conviction resulting therefrom may be dealt with as such by the Burma Medical Council under the powers given by section 21 of the Burma Medical Act, 1915. But any contravention of the Acts or Regulations involving an abuse of the privileges conferred thereunder upon Registered Medical Practitioners whether such contravention has been the subject of criminal proceedings or not, will, if proved to the satisfaction of the Council, render a Registered Medical Practitioner liable to have his name removed from the register."

SIMPLE CODE OF MEDICAL ETHICS.

The following simple Code of Medical Ethics adopted by the Burma Medical Council is published as recommended for observance of all Registered Medical Practitioners in Burma :—

1. The dignity of the profession of medicine should be maintained on all occasions ; the following and similar practices which tend to lower its dignity should be avoided :—

(*a*) Soliciting private practice, either personally or by advertisement in the newspapers, by placards, or by the distribution of circulars, cards or hand-bills.

(*b*) Deriving pecuniary profit from the sale of any secret remedy.

(*c*) Entering into any compact with a pharmacist to receive a share in the profits arising from the sale of medicines prescribed, or medical or surgical appliances.

(*d*) Publishing or sanctioning the publication of reports of cases or operations or letters of thanks from patients in non-professional newspapers or journals.

(*e*) Covering persons who are not registered under the Medical Acts.

(*f*) Keeping an open shop, that is, one for the sale of medicines, medical or surgical appliances, etc., other than those prescribed by himself or by another registered practitioner. This definition to hold good for ten years after the proposed Pharmacy Act for India shall have come into force.

(*g*) Agreeing to attend any patient on the terms of "no cure, no pay."

2. No member * should meet in consultation any practitioner who is not registered, but this rule does not apply to practitioners who are registered elsewhere and who are temporarily resident in or passing through this Province, provided their qualification is granted by a body recognised by the Burma Medical Council.

3. Every member should endeavour to observe punctuality in consultation appointments. If the medical attendant has not arrived within a reasonable time (*e.g.*, a quarter of an hour after the appointed hour), the consultant shall be at liberty to see the patient alone, and should leave his conclusions in writing in a closed envelope.

4. The duty of announcing to the patient's friends the result of the consultation shall be mutually arranged between the medical attendant and consultant.

5. Differences of opinion should not be divulged unnecessarily ; but when there is irreconcilable difference of opinion, the circumstances should be frankly and impartially explained to the patient's friends. It is open to them to seek further advice, either as is preferable, in consultation with those already in attendance, or with the medical attendant only.

6. The attendance of a consulting practitioner should cease when the consultation is concluded, unless another appointment is arranged by the medical attendant.

7. When it becomes the duty of a practitioner occupying an official position to see and report upon a case of illness or injury, he should, as a matter of courtesy, whenever practicable, communicate with the practitioner in attendance, so as to give him the option of being present. The practitioner seeing the case, officially, should scrupulously avoid interference with, or remarks upon, the treatment or diagnosis that has been adopted.

8. When a consultant in his room sees a patient at the request of his medical attendant, it is his duty to write to the latter, stating his opinion of the case, with the mode of treatment he thinks should be adopted.

9. A member entrusted with the care of the practice of a professional friend, during sickness or absence, should not charge either the patient or the absent practitioner for his services, except in the case of a special agreement between the practitioners.

10. A member called upon *in an emergency* to visit a patient, who, under ordinary circumstances, would have been attended by another practitioner, should, when the emergency is provided for, retire in favour of the ordinary medical attendant, but shall be entitled to charge the patient for his services.

11. When a member is called to a case of *obstetric* emergency during the temporary absence from any cause of the proper medical attendant, he should cease his attendance when the emergency has been provided for, or on the arrival of the proper medical attendant ; but if in the meantime he has assisted at the patient's delivery, or has been detained for a considerable time, he shall be entitled to receive a portion of the fee. Nevertheless the emergency practitioner shall be entitled to attend in a subsequent confinement if asked to do so ; but if he has attended at the request of a practitioner, he should obtain the consent of the original attendant before doing so.

---

* "Member" means a member of the medical profession who is a registered practitioner.

12. When a member is consulted by a patient whom he has previously attended during the course of the same illness at the request of another practitioner, he may propose a consultation with the said practitioner, but should decline to take charge of the case.

13. When a member is requested to attend a patient already under the care of another practitioner (the case not being one of emergency), he should decline to do so, except in consultation with the practitioner in attendance, or, in case the consultation be not agreed to, until the practitioner in attendance has been informed (in writing, if possible) that his services are no longer desired.

14. When a practitioner is consulted at his own residence it is not necessary for him to inquire if the patient is under the care of another practitioner, but if that fact should transpire, the interest of the patient or courtesy may require that the medical attendant be informed of the consultation and its results.

15. No member should receive commissions from the tradespeople in return for recommending them or their wares, or from dentists for recommending patients, nor should he pay commissions to hotel proprietors, lodging-house keepers, monthly nurses, midwives, or others for introduction to cases.

16. Members should not permit their names to appear on any premises of which they hold no tenancy, except in widespread country districts. This does not apply to legitimate branch surgeries.

17. A scale of fees should not be publicly exhibited.

18. There are no fixed fees in the medical profession, if by that expression is meant a tariff regulated by some recognised rule to which either a patient or a practitioner can appeal: but there are customary fees which vary with the place, the status of the practitioner and other circumstances. Fees are reducible at the discretion of the practitioner.

19. There is no rule that medical practitioners should not charge one another for their services, but it should be regarded as a pleasure and privilege to give one's services freely to a professional brother, his wife and children or to a medical student.

20. It is a grave breach of professional propriety for a medical practitioner to take any part in the manufacture or sale of a proprietary food or medicine, or to have his name in any way associated with it. Medical men should also be cautious how they lend themselves to the puffing of these articles.

21. A medical practitioner is justified in refusing to continue attendance on a case—

(*a*) where he finds another practitioner in attendance;
(*b*) where other remedies than those prescribed by him are being used;
(*c*) where his remedies are refused;
(*d*) where he is convinced the illness is an imposture, and he is being made a party to a false pretence;
(*e*) where the patient persists in the abuse of opium, alcohol, chloral, or similar poisons.

He is not in any way bound to give up a case because he cannot cure it so long as the patient desires his services.

22. A medical practitioner is under an obligation to a patient to preserve his secrets, and, in legal matters, should, except with the patient's consent, answer questions only at the express direction of the Judge or Magistrate presiding in a Court of Law.

A medical practitioner is not bound to answer questions put to him by policemen solicitors, vakils, or other non-judicial persons.

23. No medical practitioner should volunteer to give evidence in a Court of Law against any person who had been under his professional care. He should only appear on subpœna.

24. Medical Officers of Health should not ordinarily visit a patient under the care of a medical practitioner without notice, and should not express doubt or dissent with respect to the diagnosis before the patient or his friends. A Medical Officer of Health or Sanitary Authority ought not to demand a statement of the symptoms upon which a diagnosis of a notifiable disease was based by any medical practitioner.

25. It is the duty of medical practitioners as citizens to assist cordially in carrying out the provisions of the Public Health Acts, especially with regard to the notification of diseases so as to enable the Public Health Authorities to take preventive measures to check the spread of epidemics.

26. No medical practitioner should make use of an unduly large signboard, and only in cases where there are several entrances, or the building has more than one frontage, should more than one signboard be placed. The board should never indicate more than the name, degree or diploma and rank or title, if any, with bare details of any particular line of practice. Thus, it would be proper to add "Physician," "Surgeon," or "Physician and Surgeon," "Ophthalmic Surgeon," or "Throat and Nose Specialist," or such other single designation of one speciality only. The practitioner should not notify treatment of a disease by special line of treatment, *e.g.*, treatment of diabetes by insulin ; nor is it advisable to mention on a board any position he may be holding, or have previously held on the staff of a hospital or other institution.

27. When a registered practitioner wishes to notify a change in his address, he may publish a notice to that effect four times only on simultaneous dates in any number of papers. Such notices should not state anything beyond the bare change of address.
